GREENHOUSES AND NURSERY,

224 Fairmount Street . . . Lowell, Mass.

Please Read this before Ordering.

In presenting this Catalogue to our patrons we would beg leave to return our thanks for the liberal patronage of the past, and trust to be favored with a continuance of the same.

Purchasers unacquainted with the different varieties of plants, leaving the selection with us,—stating the sum they wish to expend, and the object they wish to effect,—may depend upon receiving the best sorts and best plants.

Orders—Parties ordering will please use the "ORDER SHEET," which will greatly facilitate their execution. If mixed up in the body of the letter, mistakes are almost unavoidable.

Persons starting in business, or florists in want of stock, will find it to their advantage to call upon us.

Shipping.—All plants sent out by us will be carefully packed and delivered in Lowell, and shipped or forwarded according to directions, after which they are at the risk of the purchaser.

We have for sale, this season, an unusually large and complete stock of Greenhouse and Bedding Plants, Evergreens, Shrubs, Vines, etc. We would earnestly request a personal inspection of the same. Those, however, favoring us with orders, may fully rely on our using every exertion to give perfect satisfaction.

Orders by mail or express will receive prompt and careful attention.

All orders from unknown correspondents must be accompanied with *cash or drafts on Lowell*.

Hyacinths, Tulips, Tuberoses, and other Bulbous Roots imported fresh every year.

Please to send on every order and to the order

RHODODENDRONS.

We would call the attention of our patrons to our superior stock of hardy Rhododendrons. These beautiful plants are yet but little cultivated, undoubtedly in a great degree from the general impression that they are difficult to manage, requiring special care and what is called peat soil; and it was at one time believed that they would not thrive in any other. Experience, however, proves the contrary, and it is now found that Rhododendrons thrive in almost any soil that does not contain lime. Strong plants, well set with buds, from two to three feet high, \$2.00 to \$5.00 each.

HEDGE PLANTS.—(Evergreen. Stone.)

The idea of planting hedges for use and ornament, and screens for the protection of orchards, farms, and gardens, is a practical one, and rapidly becoming appreciated. Among the trees adapted to ornamental hedges the American Arbor Vitæ and the Norway Spruce take the first place. By using medium-sized plants a hedge can be made as cheaply as a good board fence can be built, and then, with very little care, it is becoming every year more and more "a thing of beauty." We all know that such hedges constitute the principal attraction in our best-kept places.

American Arbor Vitæ. \$8.00 to \$25.00 per hundred.

Norway Spruce. \$25.00 per hundred.

DECIDUOUS.

Privet. One year, \$5.00 per hundred.
